## **DETAILED ACTION**

### ***Miscellaneous Matters***

1. In response to the phone interview with applicant's representative, Ms. Metcalf, on January 6, 2005, a second copy of the non-final office action (originally sent December 8, 2004) is being sent. A change in power of attorney and correspondence address was submitted on November 24, 2004, but due to processing time, the action was sent to the old address. Therefore, the action is being resent to the updated address with a new period for response date.
2. Regarding applicants inquiry about claim 28: paper number 19, referring to a restriction requirement (mailed December 10, 2002), the previous Examiner answered the question by stating the preliminary amendment (filed August 31, 1998) asked for claim 28 to be cancelled. Accordingly, claim 28 is cancelled.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 47-50 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claim 47 recites the limitation "the remote player" in line 20. There is insufficient antecedent basis for this limitation in the claim.

Claim 48 recites the limitation "the buffer means output" in lines 13 and 14, There is insufficient antecedent basis for this limitation in the claim.

Claim 50 recites the limitation "the execution step" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 49 depends from claim 48, and therefore inherits its deficiencies.

### ***Double Patenting***

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 47-50 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 13, 16, and 28 of U.S. Patent No. 5,707,286. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of claim 48 (in the instant application) are patentably similar to the independent claims of the cited patent reference, more specifically, claims 1, 13, 16, and 28 of U.S. Patent No. 5,707,286.
